***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

In a method for using a laser to pattern electrodeposited photoresist on a sloped surface, comprising the steps of depositing a layer of photoresist on top of a substrate that includes a sloped surface, and scanning a laser beam over the layer of photoresist to expose the layer of photoresist in a desired pattern, wherein the scanning step comprises projecting the laser beam in a small spot onto the substrate, including the sloped surface, and scanning the small beam spot of the laser beam relative to the substrate to define the pattern sequentially onto the substrate, including the sloped surface, the prior art does not teach or suggest the method wherein the laser is an excimer laser.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John A. McPherson whose telephone number is (571) 272-1386. The examiner can normally be reached on Monday through Friday, 8:00 AM to 4:30 PM.
